अभ्युदय

Emerging Enterprises of New India

STARTUPS SUPPORTED UNDER THE
STARTUP INDIA SEED FUND SCHEME

अभ्युदय signifies rise, progress, and advancement, a fitting expression for the journeys of emerging enterprises moving from ideas to building sustainable businesses.

This compendium brings together startups supported by AIC-Nalanda under the Startup India Seed Fund Scheme, representing a diverse range of sectors, ideas, products, and solutions. These enterprises are at different stages of their journeys but are united by a common spirit of innovation, experimentation, and enterprise.

Through seed funding and ecosystem support, the initiative provides selected startups with an opportunity to develop their ideas, strengthen their offerings, and take meaningful steps towards building their businesses.

अभ्युदय – Emerging Enterprises of New India is an effort to document and showcase these journeys. More than a collection of startup profiles, it offers a glimpse into the ideas being nurtured, the enterprises being built, and the possibilities emerging from India's growing entrepreneurial landscape.

Every enterprise begins with an idea. अभ्युदय is about recognising the journey that follows.

Foreword

Dear Stakeholders & Partners,

India's entrepreneurial landscape is being shaped by founders who are turning ideas into solutions, addressing real challenges, and building enterprises with the potential to create meaningful value. “अभ्युदय” – Emerging Enterprises of New India brings together a collection of startups supported by the Startup India Seed Fund Scheme, reflecting the diversity of ideas and sectors across the startup ecosystem.

Through AIC-Nalanda, the scheme's support has enabled selected startups to advance their ideas, strengthen their ventures, and work towards building sustainable businesses. This compendium aims to document and showcase these emerging enterprises and the journeys they are undertaking.

Each startup featured here represents a different idea, sector, and approach, yet together they reflect the spirit of innovation, experimentation, and enterprise that continues to shape New India.

At AIC-Nalanda, we remain committed to creating an environment where promising ideas can access the right support, guidance, networks, and opportunities to progress from potential to enterprise.

I congratulate all the startups featured in “अभ्युदय” and wish them continued growth and new milestones in their entrepreneurial journey.

Durga Prasad Gouda
CEO, AIC-Nalanda

AIC-Nalanda Institute of Technology Foundation is a premier business incubation center supported by the Atal Innovation Mission, NITI Aayog, Government of India, and recognized by Startup Odisha.

AIC-Nalanda empower startups and innovators by offering state-of-the-art co-working spaces, specialized design labs, and access to a rich mentor pool. By facilitating exclusive industry and investor connections alongside comprehensive legal and accounting support, our primary objective is to foster a dynamic spirit of innovation and entrepreneurship among the nation's youth.

Agentprod Ventures Private Limited

Grant | ₹ 6,00,000/-

**DPIIT Recognition Number**
DIPP159300**Application Id**
60109**Founder Name**
Muskaan**Sector**
AI

Agentprod Ventures Private Limited develops an AI-powered B2B sales automation platform that helps businesses scale prospecting and outreach while reducing manual sales effort. It automates prospecting, email personalization, follow-ups, and conversation management, while learning from interactions to improve outreach. AgentProd also integrates with Slack to fit into existing workflows. It targets B2B companies with sales teams, particularly mid-sized and larger businesses, and operates through tiered subscription plans based on usage, features and enterprise requirements.

Arthx Drones Private Limited

Grant | ₹ 4,00,000/-

**DPIIT Recognition Number**
DIPP120919**Application Id**
60177**Founder Name**
Prashant Kumar**Sector**
Drones

Arthx Drones Private Limited develops indigenous drone systems and customized solutions for government, defence, agriculture, infrastructure, and security applications. The company focuses on reducing dependence on imported components while developing nano drones, swarm technology, and customized payloads. It also provides consultation and training to support industrial adoption of drone technology. Arthx Drones plans revenue through consultation, custom builds, product sales, subscriptions, and integration services, serving government agencies, military users, and commercial sectors.

Bugbear Technologies Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP150595

Application Id
57523

Founder Name
Sourav Das

Sector
IT Consulting

Bugbear Technologies Private Limited provides AI-based cybersecurity solutions designed to simplify security management through fixed-budget and subscription approaches. Its offerings include Utkal.io, a vulnerability-assessment and security-management tool, alongside MiniBracket and the developing Trilling.AI. The company brings multiple security functions into a unified dashboard and offers managed security, integration, implementation, and audit services. Its target customers include organizations in BFSI, IT and telecom, healthcare, government and defence, retail, and manufacturing.

Calytics Global Private Limited

Grant | ₹ 8,00,000/-

DPIIT Recognition Number
DIPP118952

Application Id
19636

Founder Name
Alluri M Janaki Ramaraju

Sector
AdTech

Calytics Global Private Limited develops an Ad-Tech platform for the outdoor advertising industry to improve measurement, accessibility, and targeted marketing. Its solution combines IoT hardware, cloud software, data analytics, and AI to help media owners monitor sites, provide surveillance solutions to prevent vandalism, and help brands plan and execute campaigns. It also offers real-time campaign execution proof and audience reach analytics. CALYTICS serves media owners, agencies, and advertisers, generating revenue through hardware sales, subscriptions, and commissions.

Deeptechgenie Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP138713

Application Id
49181

Founder Name
Bikash Mohanty

Sector
Machine Learning

Deeptechgenie Private Limited develops technology solutions for smart retail, combining IoT, AI, and automation to improve checkout, pricing, and store operations. Its offerings include a smart tagging system for seamless checkout and display panels that enable dynamic price changes at retail shelves, supported by real-time data insights. It aims to simplify store management while reducing dependence on manual processes. Customers include large malls, supermarkets, and large-format stores, with revenue planned through subscription, transaction, and related charges.

Edsy Education Private Limited

Grant | ₹ 2,00,000/-

DPIIT Recognition Number
DIPP253210

Application Id
108003

Founder Name
Chirag Jain

Sector
Coaching

Edsy Education Private Limited is an AI-powered EdTech platform that connects students with vetted tutors and an AI Coach to transform English language learning. It offers personalized speaking practice, CEFR-aligned assessments, and real-time feedback to improve communication skills, particularly in Tier 2 and Tier 3 cities. Edsy serves Classes 6–12, college learners, and partner schools. Its commission-based model earns a share of tutoring fees alongside institutional collaborations, enabling scalable access to quality education.

Eskrosoft Systems & Services Private Limited

Grant | ₹ 6,00,000/-

DPIIT Recognition Number
DIPP120296

Application Id
61439

Founder Name
Nadeem Bari

Sector
Finance Tech

Eskrosoft Systems & Services Private Limited develops ESKRO, a payment automation and subscription management platform for recurring payments and collections. Using UPI Autopay and NACH technology, the platform helps businesses automate collections while giving users a dashboard to manage recurring payments such as school fees, rent, and utility bills. ESKRO also offers rewards linked to recurring payments. Its business customers include schools, gyms, PGs, and subscription-based services, with revenue from transaction charges to businesses, while user payments through the app remain free.

Eveoai Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP163790

Application Id
59130

Founder Name
Sachin Sutariya

Sector
AI

Eveoai Private Limited is developing an AI- and AR-enabled personal virtual assistant for personality management, helping users make informed choices around styling, fashion, and personal presentation. The platform provides personalized guidance, recommendations, and virtual simulations based on events, region, age, and preferences. Its aim is to make expert-style advice more accessible and affordable while reducing the need for repeated trials of products and styles. The business model combines subscriptions, partner API fees, and affiliate commissions for individuals and industry partners.

Eviman Transport Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP106553

Application Id
56839

Founder Name
Abhijit Mohanty

Sector
Passenger Transportation Services

Eviman Transport Private Limited develops affordable hybrid mobility solutions and operates a transportation aggregator for rural and semi-urban areas. Its vehicle portfolio includes cabs, bikes, autos, logistics vehicles, and agricultural equipment, supported by a route-defined service where drivers plan routes in advance to connect passengers efficiently. It combines renewable technologies with optimized routing. Customers include commuters, businesses, farmers, tourists, and travelers, with revenue from transport services, vehicle sales, and related offerings.

Exsure Private Limited

Grant | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP100136

Application Id
20677

Founder Name
Abhishek Dutta

Sector
Biotechnology

Exsure Private Limited develops DendroSURE, a Made-in-India cell culture kit designed to support faster differentiation and maturation of monocytes into dendritic cells. The formulation is positioned as a cost-effective alternative to longer and more expensive cell-culture processes, with the company reporting faster differentiation and improved data reproducibility. EXSURE plans to build in-house capability for key biomolecules and expand its product range. Its customers are research laboratories and therapeutic companies working with dendritic cells.

Farmint India Private Limited

Grant | ₹ 6,00,000/-

**DPIIT Recognition Number**
DIPP138006**Application Id**
56003**Founder Name**
Aravindo Swain**Sector**
IT Services

Farmint India Private Limited develops BuildMyStore, an all-in-one e-commerce platform for small and hyperlocal businesses that want to establish and manage online stores without extensive technical skills. It combines a drag-and-drop store builder with payment, delivery, inventory, and accounting tools, as well as subscription ordering and first-party delivery integration. Its focus is affordability, ease of use, and rapid setup. BuildMyStore serves businesses in retail, food, home and décor, services, and other categories through subscription plans and transaction charges.

Freakin Sports Private Limited

Grant | ₹ 5,00,000/-

**DPIIT Recognition Number**
DIPP164727**Application Id**
60400**Founder Name**
Gopal Krushna Sahu**Sector**
Sports

Freakin Sports Private Limited is developing Khelaxy, a sports-focused digital community that brings fans, athletes, coaches, trainers and professionals together through specialized content and networking. The platform addresses fragmented access to sports information and limited community interaction through dedicated channels, discussions, content opportunities and an integrated store. It is also developing live streaming and audio/video interaction. Khelaxy generates revenue through premium memberships, advertising, e-commerce, sponsorships and workshops across the sports ecosystem.

Gauravgo Games Technologies Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP110104

Application Id
16504

Founder Name
Dipesh Gaurav

Sector
Virtual Games

Gauravgo Games Technologies Private Limited develops Indian-themed multiplayer games and a gamified metaverse in regional languages. Its platform combines culturally relevant stories, AR-supported experiences, and community-driven gameplay, in which users earn while playing with no fees. Businesses can promote and sell in-game, enhancing user enjoyment alongside non-interruptive, preference-based advertising. It generates revenue through ads and in-game purchases, targeting internet users aged 7+ and businesses seeking to reach audiences through virtual gaming environments.

Greenverse Private Limited

Grant | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP75062

Application Id
19388

Founder Name
Saket Agrawal

Sector
Healthcare Technology

Greenverse Private Limited develops Air Buddi, a customizable indoor air purifier that combines natural and technological purification in one system. It uses living plants, root purification, HEPA filtration, and activated carbon filtration to address particulate and gaseous pollutants while adding greenery to indoor spaces. The system can be adapted to different spaces and air-quality requirements. Greenverse targets hospitals, offices, hotels, restaurants, apartments, and airports through device sales, customization, maintenance subscriptions, and rental services.

Imaginxt Industries Private Limited

Grant | ₹ 5,24,557/-

DPIIT Recognition Number
DIPP105067

Application Id
28381

Founder Name
Rahul Choudhury

Sector
3D Printing

Imaginxt Industries Private Limited develops accessible 3D printing solutions focused on affordability, speed, ease of use, customization, and material flexibility. Its printers use a dual-extruder system and software that simplifies the printing process for users with limited technical knowledge. The company also offers modular customization and a wide range of compatible materials for different applications. INXT targets schools, colleges, hobbyists, businesses, and industries, generating revenue through printer and software sales, training, support, maintenance, and customization services.

Ind4 Steel Solutions Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP136214

Application Id
58580

Founder Name
Kvkashyap Prakash

Sector
Robotics Application

Ind4 Steel Solutions Private Limited develops industrial and medical robotics solutions, including the CO-Bot coke oven brick repair robot, CPR robots, and advanced medical devices. It applies robotics to industrial and healthcare environments where automation can support safety and operational efficiency. Its solutions serve steel plants, manufacturing facilities, and healthcare institutions, with plans for international expansion. Revenue comes from product sales, maintenance and support contracts, consulting, training, and related service offerings.

Innoflect Solutions Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP160714

Application Id
60564

Founder Name
Adishree Adishree

Sector
Internet of Things

Innoflect Solutions Private Limited develops a portable soil health monitoring system combining a user-friendly testing kit with an application for interpreting results. It enables farmers to conduct field-based soil testing and use the results to make better crop and soil management decisions. The solution emphasizes accessibility and cost-effectiveness while reducing dependence on conventional testing processes. Innoflect plans to reach users through farmer unions, government programs, and agricultural institutions, targeting farmers, gardeners, agri-institutes, and agronomists.

Intellicuria Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP151847

Application Id
49269

Founder Name
Mrinmoy Das

Sector
Machine Learning

Intellicuria Private Limited develops Clinisio, an AI-powered clinical decision support platform supporting healthcare professionals with diagnosis, operations, and multilingual communication. It combines AI-based diagnostic assistance with data privacy, accessibility, and language support for healthcare settings in urban and rural areas. Intellicuria plans to expand through partnerships with hospitals, clinics, doctors, government programs, and NGOs. Revenue comes through subscriptions, API licensing, integrations, add-on services, certification, and training.

Jaywing Technologies Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP133345

Application Id
31311

Founder Name
Jayabeer Sutar

Sector
Drones

Jaywing Technologies Private Limited develops a compact, cost-effective flight-control and computing kit for different types of drones. The kit adds internet connectivity, on-board computing, real-time data analysis, and telemetry, along with cloud-based data storage and mission-planning capabilities. The company also plans services in 3D mapping, LiDAR navigation, aerial photography, weather monitoring, and agriculture. Its customers include drone users, researchers, agricultural businesses, infrastructure operators, emergency services, and logistics and delivery providers.

MPRHT Care Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP154323

Application Id
60633

Founder Name
Gunjan Kaur

Sector
Pets & Animals

Mprht Care Private Limited develops pet grooming and care products focused on practical utility, natural ingredients, and affordability. Its range includes shampoos, conditioners, herbal treatments, and accessories, with product development informed by the needs of pets and their owners. The company combines research-led formulation with pet-centric design and plans to expand through e-commerce, retail, and international markets. MPRHT Care serves pet owners, particularly those seeking natural wellness-oriented products, with additional revenue from wholesale, exports, and branded merchandise.

Murtiwala Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP100389

Application Id
58738

Founder Name
Rishi Aditya Sharma

Sector
Clean Tech

Murtiwala Private Limited creates personalized, hyper-realistic human figurines for memorial, commemorative, and artistic purposes. Its products use advanced technology and materials to recreate lifelike appearance and sensory qualities, offering customized ways to preserve memories or mark significant occasions. The company plans to expand through digital marketing, partnerships, and online and retail channels while continuing product and material development. Murtiwala serves higher-income households, with revenue from product sales, customization, partnerships, and bulk orders.

Newrup Tech Solutions Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP102560

Application Id
30146

Founder Name
Anup Paikaray

Sector
Non- Renewable Energy

Newrup Tech Solutions Private Limited develops clean energy devices like smokeless stoves and CHULIV, an add-on device for biomass stoves. CHULIV uses cooking heat to power an air-injecting fan, improving combustion. These affordable, low-maintenance solutions align with existing cooking practices while addressing indoor air pollution, reducing related deaths by 1 million. It targets rural households, expanding access through NGOs, government programs, and corporate channels.

Onboards Construction Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP154273

Application Id
57453

Founder Name
Aryaman Dash

Sector
Agri-Tech

Onboards Construction Private Limited develops CocoBoards, a construction-material solution that uses coconut waste to create sustainable alternatives to conventional plywood. The product is being developed to provide strength, water, and termite resistance, fire resistance, and practical usability while reducing dependence on tree-based materials. The company is focused on testing and certification before wider commercialization. Its initial B2B customers include builders, architects, and interior designers, with revenue planned through the sale of finished products and material supply to manufacturers.

Onestop Wellness Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP114540

Application Id
18142

Founder Name
Sakshi Shah

Sector
Health & Wellness

Onestop Wellness Private Limited is building a digital wellness platform connecting users with personalized mental health solutions, assessments, and professional support. The platform combines technology and biomarker tracking with AI algorithms to deliver enhanced well-being insights, taking a holistic approach to comprehensive mental well-being management. It aims to make guidance accessible from mental illness to wellness through B2C and B2B offerings. Users include professionals, young mothers, students, senior citizens, and corporate clients.

Pivott Techno Sports Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP153229

Application Id
59444

Founder Name
Oneill Noah

Sector
Sports Promotion and Networking

Pivott Techno Sports Private Limited is building a technology-led ecosystem to organize and develop India's tennis ball cricket community. Its platform is designed to offer player profiles, match scheduling, and performance analytics, creating more structured opportunities for players in this largely unorganized format. The startup aims to use technology and community engagement to identify talent and support a pathway toward professional sport. Revenue streams include memberships, in-app purchases, advertising, merchandise, data licensing, partnerships and sponsorships.

Planbow Software Private Limited

Grant | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP156556

Application Id
56202

Founder Name
Varun Gaur

Sector
Product Development

Planbow Software Private Limited develops a generative AI solution that helps startup teams develop business strategies and actionable roadmaps aligned with their objectives and challenges. Planbow is designed to turn strategic inputs into structured plans, support real-time adaptation, and provide insights that help teams allocate resources and track progress. It aims to scale through partnerships with incubators and a subscription-based model. Customers include early- and growth-stage startups, as well as founders, investors, and advisors seeking structured, AI-supported strategic planning.

Thirdi Technologies (OPC) Private Limited

Grant | ₹ 75,443/-

DPIIT Recognition Number
DIPP97624

Application Id
21463

Founder Name
Meenakshi Ramaswamy

Sector
AI

Thirdi Technologies (OPC) Private Limited is developing a portable AI-enabled cervical cancer screening and diagnostic tool for low-resource settings. It uses AI models to identify cervical cancer lesions from VIA images and HPV screening tests, reducing dependence on advanced equipment and specialist availability. The portable solution can support trained community health workers, paramedics, and nurses. Thirdi plans to work with hospitals, government agencies, NGOs, research institutions, and healthcare providers through device sales, rentals, and technology services.

Twinverse Technology Private Limited

Grant | ₹ 6,00,000/-

DPIIT Recognition Number
DIPP119749

Application Id
23045

Founder Name
Vineet Jana

Sector
AR VR

Twinverse Technology Private Limited develops a no-code platform and creates custom AR and VR experiences that immerse audiences in extraordinary realms. Its Web3-based platform uses AI, 3D scene creation, and multiplayer functions, allowing businesses to showcase brands and products without managing multiple development teams. Designed for tourism, training, meetings, and customer engagement, it provides unique, memorable ways to leave a lasting impression. Revenue comes from customized enterprise solutions priced based on selected modules.

Urban-Hyphae Bioscience Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP159519

Application Id
62072

Founder Name
Adhiraj Mohapatra

Sector
Biotechnology

Urban-Hyphae Bioscience Private Limited develops fungi-mycelium-based leather as an alternative to animal leather. Its process uses a unique fungal strain and mycelium stacking approach, avoiding conventional heavy-metal chemicals and tanning while focusing on strength and reduced resource use. The company also uses agricultural waste, linking material innovation with circular-economy principles. Urban Hyphae targets leather-product manufacturers, designers, artisans, and eco-conscious consumers through material supply, finished products, and partnerships.

Weavevogue Innovations Private Limited

Grant | ₹ 5,00,000/-

DPIIT Recognition Number
DIPP163376

Application Id
59269

Founder Name
Akash Patro

Sector
Fashion Technology

Weavevogue Innovations Private Limited provides a platform for renting designer clothing, making occasion-focused fashion more accessible while promoting garment reuse. The model connects customers with designer wear without requiring full ownership and gives designers access to a broader consumer market. The platform combines accessibility, convenience, sustainability, and designer support. Users include fashion enthusiasts, designers, retailers, and consumers interested in reuse, with revenue from rental fees, designer partnerships, subscriptions, transaction charges, and premium services.

Wooble Software Private Limited

Grant | ₹ 6,00,000/-

DPIIT Recognition Number
DIPP119549

Application Id
51939

Founder Name
Akash Jaiswal

Sector
IT Services

Wooble Software Private Limited connects learners and professionals with experienced mentors for career planning and professional growth. Its platform focuses on direct mentorship, practical career insights, personalized guidance, and Success Kits that help users turn career goals into actionable plans. Wooble aims to grow through institutional partnerships, localised content, and technology-enabled matchmaking. Users include students, graduates, and working professionals seeking career direction, with revenue coming from commissions on paid mentorships and Success Kits, as well as future advertising.

Zefro Technologies Private Limited

Grant | ₹ 3,00,000/-

DPIIT Recognition Number
DIPP127914

Application Id
59232

Founder Name
Soubhagya Pradhan

Sector
IT Services

Zefro Technologies Private Limited develops a discreet and customizable teeth hearing aid for people with hearing impairments. The solution combines user-focused design with Bluetooth connectivity, water resistance, long battery life, and customizable sound settings for convenient everyday use. Zefro aims to provide an alternative to conventional hearing aids for users seeking a less visible, technology-enabled option. Its customers include young adults, working-age users, and seniors, with revenue planned through product sales, subscriptions, and service fees.

Acceldrive India Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP133528

Application Id
69449

Founder Name
Deepak Kumar Pradhan

Sector
Automotive

Acceldrive India Private Limited provides technology-enabled doorstep repair and maintenance services for two- and four-wheelers. Its model connects customers with trained service partners for breakdown support, repairs, insurance-related assistance, and maintenance, with AI-based estimation and service-history features under development. The company focuses on convenience, round-the-clock support, and local service access. Acceldrive targets vehicle owners in Tier 1 and Tier 2 cities, generating revenue through service commissions, spare-part commissions, and subscription plans.

Barsathi.Agrotech Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP157929

Application Id
62180

Founder Name
Adinath Jagtap

Sector
Agri-Tech

Barsathi.Agrotech Private Limited provides agricultural inputs and personalized crop advisory services to improve farming decisions and promote sustainable practices. Through its Krishi-Mitra model, the company supports farmers with seeds, fertilizers, pesticides, chelated micronutrients, and bio-inputs, as well as guidance on crop management and soil health. It aims to expand through contract farming, market linkages, and technology-enabled irrigation solutions. Barsathi primarily serves small and marginal farmers, including growers of crops such as pomegranate, chilli, banana, and grapes.

Bullzee International Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP141176

Application Id
42471

Founder Name
Ananda Gouda

Sector
Fashion

BULLZEE

Bullzee International Private Limited designs and manufactures sportswear that combines performance, comfort, and contemporary styling at accessible price points. Its products focus on breathability, moisture management, flexibility, and functionality across sports and everyday use, with customization in colours, designs, and features. Bullzee aims to offer durable sportswear without making it inaccessible to price-conscious consumers. The brand reaches customers through e-commerce and targets users in sports, fitness, and casual wear who seek a balance of performance, comfort, and style.

Caare Healthtech Services Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP86599

Application Id
26489

Founder Name
Chandramouli Samatham

Sector
Healthcare Services

Caare Healthtech Services Private Limited develops telemedicine solutions that connect rural and senior communities with healthcare through trained health workers and digital tools. Its model enables health workers to collect patients' vitals at home and share relevant information with doctors, helping to bridge gaps in access to specialists and technology availability. Caare plans to build a network of low-cost telemedicine outlets across rural regions. Its services are offered through consultation-based transactions and subscriptions, with a focus on pregnant women, senior patients, and children.

Clicks Talent Connect Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP110349

Application Id
27066

Founder Name
Arasu Mathad Tippu

Sector
E-learning

Clicks Talent Connect Private Limited is a premium online platform offering courses across more than 100 categories. It reduces the cost and risk of training and campus placement through a Pay-After-Placement model, giving students, job seekers, professionals, and homemakers access to upskilling and internships without upfront payment. The platform combines employability programs, quality teaching, hiring support, and certification. Revenue comes from placement, training, and related services, transforming learning and recruitment through technology.

Crave Raja Foods Cravings Ke Kings Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number

Application Id
60955

Founder Name
Subhabrata Ganguly

Sector
Food & Beverages

Crave Raja Foods Cravings Ke Kings Private Limited maximises the potential of single-brand restaurants by addressing underutilized capacity. Supported by central production and cold-chain logistics, its model helps partners expand menus and leverage off-peak hours to boost order volumes without compromising quality. It also serves home kitchens, schools, and corporate canteens. Revenue comes from restaurant distribution, direct sales, and institutional contracts, driving long-term profitability through optimized operations.

Debaki Water Bottling Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP176780

Application Id
105984

Founder Name
Swaroop Singh

Sector
Food & Beverages

Debaki Water Bottling Private Limited develops a sustainable hydration portfolio combining packaged drinking water, compostable packaging, and wellness-oriented beverages. Its brands include VitaPure Green, VitaPure Premium, and Alkapuree, as well as a planned functional beverage. The company plans to scale through retail, e-commerce, institutional sales, distributors, and franchise manufacturing. Its customer segments include hospitals, hotels and restaurants, everyday consumers, offices, and health-conscious users seeking hydration options with different product positioning.

Densitor Energy Storage Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP89259

Application Id
16620

Founder Name
Subodh Khanolkar

Sector
Green Technology

Densitor Energy Storage Private Limited develops smart supercapacitor power packs for applications requiring high surge power and controlled energy delivery. Its systems combine supercapacitors for surge current with batteries for continuous current, supported by charge-equalizing and discharge-control circuits. The company plans standardized power-pack designs for electric vehicles, railways, defence, boats, and material-handling equipment. Revenue is based on sales of power packs and related engineering solutions, with a focus on application-specific designs and long service life.

Dexkorcrm Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP188212

Application Id
85351

Founder Name
Richard Samuel

Sector
Enterprise Software

Dexkorcrm Private Limited develops an AI-native customer operations platform that integrates sales, support, onboarding, and customer success into a single system. It helps businesses centralize customer data, automate workflows, identify risks, and improve visibility across the customer lifecycle, rather than relying on multiple disconnected tools. DexKor targets startups, SMEs, and mid-sized businesses that need integrated customer operations as they scale. Revenue comes through recurring SaaS subscriptions, supported by implementation, customization, integrations, and premium AI or enterprise features.

Dhajcraft Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP105099

Application Id
12007

Founder Name
Rashmi Rashmi

Sector
Lifestyle

Dhajcraft Private Limited develops personalized, handcrafted footwear based on foot shape, biomechanics, and preferences. Combining technology with custom design, it offers intricate handmade paintings and embroidery using materials like jute and khadi. Customers can customize footwear to match their dress and foot size. The company also develops footwear for specific needs, including those of diabetics and specially abled users. Dhajcraft plans to expand via e-commerce and boutiques, serving customers seeking customized, comfortable, and designer footwear.

Drivetap Innovation India Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP208327

Application Id
107404

Founder Name
Akshay Neelakantha

Sector
Finance Technology

Drivetap Innovation India Private Limited develops Paytap, a vehicle-linked financial infrastructure platform that helps fleet operators control and monitor vehicle-related spending. Each vehicle can have a dedicated wallet with rules for spending categories, limits, and time windows, while transactions are recorded through a unified ledger for visibility and audit readiness. The platform combines payments, compliance, and AI-driven insights for fleet expense management. Paytap targets logistics companies, transport businesses, and enterprises operating small to mid-sized vehicle fleets.

Emerging Climate Innovations Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP117919

Application Id
68038

Founder Name
Mridul Agarwal

Sector
Waste Management

Emerging Climate Innovations Private Limited is developing a technology-enabled waste-to-value platform connecting waste collection, recycling, and recycled-product consumption. Its approach brings the supply and demand sides of waste management onto a single platform, enabling households to sell scrap and access recycled-lifestyle products. The model works with waste pickup, segregation, recycling, and manufacturing partners to shorten the waste-management chain. The platform targets households and consumers aged 21–50, with revenue planned through D2C and B2B channels.

Filmoye Private Limited

Debt | ₹ 20,00,000/-

DPIIT Recognition Number
DIPP132308

Application Id
73499

Founder Name
V B Biswanath Satapathy

Sector
Media & Entertainment

Filmoye Private Limited is developing an AI-powered OTT platform that converts content between languages, improving multilingual access while reducing the costs of traditional dubbing and localization. The solution serves content creators seeking wider reach and viewers who prefer content in their own language. Filmoye plans to focus on underserved and rural markets through affordable pricing, regional partnerships, and expanded language support. Revenue is planned through subscriptions, advertising, premium content, and partnerships with telecom and device companies.

Folkit Platforms Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP131060

Application Id
60861

Founder Name
Shruthi Nadiminti

Sector
AR VR

Folkit Platforms Private Limited is developing a digital home-buying platform that helps consumers compare residential properties through personalized assistance and interactive digital experiences. Its proposition combines AI-supported comparison with digital-twin technology for residential communities. Folkit targets millennials and first-time homebuyers, while developers form an important business customer segment. Revenue comes through developer commissions, sales-qualified leads, and paid 3D experiences, with expansion beginning in Indian cities.

Fusionflare Technologies Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP163418

Founder Name
Gnaneswar Ikkurthi

Sector
Green Technology

ECOKHETI

Fusionflare Technologies Private Limited develops sustainable agricultural solutions, including Solar Insect Traps, Biochar, and Grow Lights, to reduce reliance on chemical pesticides and support soil health. Additionally, it enhances road safety by providing high-quality dash cameras for the automotive sector, ensuring driver accountability. FusionFlare plans to scale through product development and partnerships, serving farmers, agricultural enterprises, government programs, and other buyers.

Harmonic Hues LLP

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP179830

Application Id
78605

Founder Name
Akshay Paliwal

Sector
Personal Care

Harmonic Hues LLP develops grooming products for Indian men, focusing on India-made solutions for everyday grooming needs. Its product strategy includes quick-fix grooming products designed for convenient results, along with skincare and other personal-care offerings tailored to Indian consumers. The brand uses a direct-to-consumer approach and plans to expand through marketplaces, quick-commerce, and salon partnerships. Harmonic Hues primarily targets urban men aged 24–35, while also serving younger and older consumers seeking practical grooming solutions.

Innovus Hub Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP146646

Application Id
59910

Founder Name
Manisha Burman

Sector
Green Technology

Innovus Hub Private Limited develops a universal water pump automation device designed to reduce water waste and improve pump safety in residential and commercial settings. It works with various pump types and includes overload, dry-run, motor-jam, and short-circuit protection, as well as installation, maintenance, and doorstep support. Customers include households, apartments, commercial properties, builders, government projects, industrial facilities, farms, and educational institutions. Revenue is planned through product sales, distribution partnerships, and annual maintenance services.

Lamiso Tech Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP109963

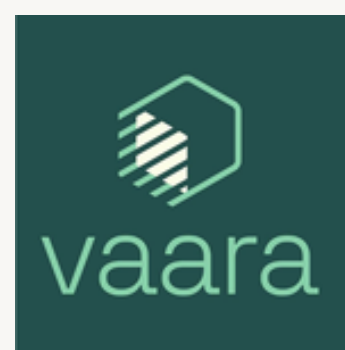

Application Id
20612

Founder Name
Khushboo Shinagare

Sector
Green Technology

Lamiso Tech Private Limited develops Vaara, an electric refrigeration solution designed for first-mile and last-mile movement of temperature-sensitive products. Its battery-powered cooling technology is designed to reduce refrigeration and transport costs while supporting cleaner logistics and improved temperature control. The solution helps reduce quality losses and product wastage in dairy, fresh produce, meat, bakery items, and pharmaceuticals. Revenue includes direct unit sales, leasing, and subscriptions for transport and product-condition data.

Massless Innovation Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP153386

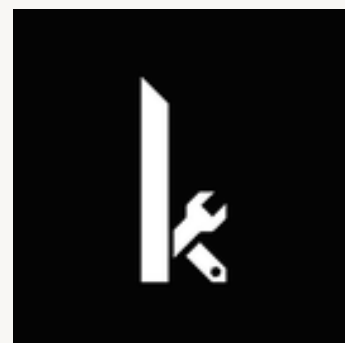

Application Id
51014

Founder Name
Siddharth Bhatte

Sector
Product Development

Massless Innovation Private Limited develops Makers App, a platform that helps makers and innovators access tools, tutorials, expert guidance, and a collaborative community for hardware development and prototyping. The platform aims to reduce the barriers creators face when moving from an idea to a physical product by bringing resources and mentorship together. Makers App targets makers, innovators, DIY enthusiasts, educational institutions, and maker spaces. Its revenue model combines subscriptions, transaction fees, partnerships, advertising, and consulting or training services.

Mo Ink N Dyes Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP179537

Application Id
79269

Founder Name
Avinash Mohanty

Sector
Textiles & Apparel

Mo Ink N Dyes Private Limited connects spinners, weavers, and processors through a technology-enabled value chain for quality-assured yarn and handloom products. It focuses on eco-friendly dyeing, direct sourcing, and smaller order sizes to reduce dependence on intermediaries and improve access to procurement for weaving and textile businesses. Its platform also uses AI-driven analytics for demand forecasting and inventory management. Ink n Dyes targets SMEs, rural and semi-urban weavers, yarn processors, and eco-conscious brands through B2B sales, services, and market linkages.

Oak Springs Natural Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP102388

Application Id
32846

Founder Name
Soumya Parmar

Sector
Health & Wellness

Oak Springs Natural Private Limited creates natural personal care and wellness products using sustainable materials and packaging, and in collaboration with rural communities. The company focuses on reducing plastic use through largely plastic-free formats while working with rural artisans and women in Uttarakhand. Its model combines D2C sales with B2B and export opportunities, including partnerships with retailers, spas, hotels, and wellness centres. Oak Springs aims to make sustainable personal care more accessible while creating livelihood opportunities through local skill development.

Qonaq Health & Wellness Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP158987

Application Id
63196

Founder Name
Dr Riya Shree

Sector
Health & Wellness

Qonaq Health & Wellness Private Limited connects international patients and wellness seekers with healthcare and wellness services, with a focus on affordability, access, and quality. The platform works with hospitals and wellness providers to organize medical and wellness travel, offering treatment and wellness packages. Qonaq combines healthcare facilitation with wellness experiences and transparent information. Its customers include international patients, medical tourists, wellness seekers, and corporate clients, with revenue through facilitation, booking, promotional, and wellness services.

Ramesh Iyengar Associates LLP

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP93940

Application Id
22792

Founder Name
Ramesh Moorthy Iyengar

Sector
Food & Beverages

Ramesh Iyengar Associates LLP operates IYENGAR'S Filter Kaapi, offering fresh South Indian filter coffee delivered to office workers in ready-to-serve steel thermos flasks. The service focuses on replacing powder-based machine coffee with an artisanal coffee experience that can be conveniently enjoyed at the workplace. Its proprietary preparation and delivery system is designed to retain heat and freshness through the delivery cycle. It plans to expand across cities through direct operations and franchises, while also developing packaged filter coffee and complementary South Indian snacks.

Rasashine Organics Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP166427

Application Id
66652

Founder Name
Lajja Brahmbhatt

Sector
Personal Care

Rasashine Organics Private Limited, through Neera Naturals, develops handcrafted skincare products using natural and organic ingredients. The company combines handmade production with custom formulations and eco-friendly packaging, while creating employment and training opportunities for women. Its proposition focuses on natural ingredients, family-friendly products, and responsible production. Neera Naturals targets organic beauty enthusiasts, eco-conscious consumers, health-conscious families, and ethical shoppers through direct sales, retail, marketplaces, wholesale, and brand collaborations.

Raw Beauty Wellness Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP128799

Application Id
26456

Founder Name
Sunayana Walia

Sector
Personal Care

Raw Beauty Wellness Private Limited develops skincare and haircare products focused on certified ingredients, mindful consumption, and accessible beauty. The brand works with farmers and NGOs in India and continuously refines its formulations through research and customer feedback. Its proposition combines product efficacy, reasonable pricing, and options for different skin, hair, and scalp needs, alongside a slow-beauty approach that challenges conventional consumption. Raw Beauty serves consumers aged 16+ through its website, marketplaces, and retail channels.

Realtimate Labs Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP110873

Application Id
22337

Founder Name
Pavan Reddy

Sector
Finance Technology

Realtimate Labs Private Limited develops digital solutions to simplify real estate transactions and reduce manual processes, trust gaps, and workflow complexity. Its platform combines standardized templates, digital contracts, e-stamping, Aadhaar-based electronic signatures, WhatsApp collaboration, and digital escrow services. It also supports rental management and property workflows. Customers include buyers, sellers, builders, developers, tenants, homeowners, and commercial real estate businesses, with revenue through transaction and rental-platform fees.

Setupmy Hotel Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP114755

Application Id
27890

Founder Name
Dharmesh Pankhawala

Sector
Food & Beverages

Setupmy Hotel Private Limited operates FreedyGo, a platform for timely procurement and inventory delivery for food and hospitality businesses. It combines real-time inventory tracking, auto-replenishment, automated billing, and doorstep delivery to help customers manage supplies more efficiently and reduce wastage. FreedyGo offers perishable and non-perishable products, quality checks, and a Buy Now Pay Later facility, subject to eligibility. Its primary customers include hotels, cafés, pubs and bars, cloud kitchens and food businesses, with revenue from delivery and inventory-related services.

Tanumanasa Research Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP156524

Application Id
57209

Founder Name
Abinash Das

Sector
AI

Tanumanasa Research Private Limited develops Vichayan AI, a knowledge and research tool that provides fast, reference-based answers while addressing misinformation and language barriers. The platform supports information retrieval, data collection, summaries, and actionable insights across domains and languages. Its large-language-model approach helps users work with diverse sources and complex queries. Vichayan AI targets researchers, students, and professionals and plans revenue through subscriptions, enterprise licensing, and consultation services.

Udyamwell Private Limited

Debt | ₹ 15,00,000/-

DPIIT Recognition Number
DIPP142554

Application Id
78491

Founder Name
Sachin Korla

Sector
Business Support Services

Udyamwell Private Limited is building a digital ecosystem for rural entrepreneurs, artisans, farmers, and micro-businesses to improve market access and business capabilities. Its ONDC-enabled marketplace connects sellers with customers, while the platform provides digital literacy, financial education, mentorship, logistics support, and access to funding and government schemes. UdyamWell focuses on reducing dependence on intermediaries and strengthening the visibility of rural enterprises. Revenue comes through transaction commissions, premium programs, enterprise solutions, and collaborations.

Wealides Fintech Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP82778

Application Id
23715

Founder Name
Priyesh V. Gandhi

Sector
Finance Technology

Wealides Fintech Private Limited develops SayF, an app that combines shopping, saving, and investing by rewarding users for transactions with partner brands. The platform helps users save on purchases while earning rewards in digital gold, with UPI-based transactions supported across a network of partner brands. SayF focuses on young adults who shop online and may not have access to premium credit cards. Revenue comes from brand partnerships and a share of digital gold sales, with further growth planned through wider user adoption and market expansion.

Windowwatt India Private Limited

Debt | ₹ 10,00,000/-

DPIIT Recognition Number
DIPP185008

Application Id
105141

Founder Name
Ankita Banchhor

Sector
Renewable Solar Energy

Windowwatt India Private Limited develops semi-transparent solar technology that turns windows, facades, balconies, and other building surfaces into power-generating assets. Its building-integrated approach suits urban environments where rooftop space is limited while preserving natural light and architectural aesthetics. The company plans pilots and partnerships with developers, architects, facade consultants, EPC partners, and installers. Customers include commercial real estate developers, infrastructure companies, government and institutional buildings, airports, malls, hospitals, and hotels.

Yellowings Delivery Services Private Limited

Debt | ₹ 12,00,000/-

DPIIT Recognition Number
DIPP75444

Application Id
20365

Founder Name
Vinayak Gupta

Sector
Logistics

Yellowings Delivery Services Private Limited provides electric mobility solutions for intra-city and middle- and last-mile delivery. Its model uses electric vehicles to support lower operating costs and reduced direct fossil-fuel use, including electric cargo and reefer vehicles. The company plans to expand its vehicle network across multiple Indian cities and serve business customers through flexible delivery and service models. Revenue streams include delivery and service fees, commissions, white-label logistics, subscriptions, and business catering services.

Axxemo Tech Private Limited

Investment | ₹ 20,00,000/-

DPIIT Recognition Number
